

Experiment 8.3

Determination and Plotting of Intrinsic Impedance vs Relative Permittivity

Code File Name: Exp8_3_IntrinsicImpedance.m

Code

```
clc;
mu0 = 4*pi*1e-7;
epsilon0 = 8.854e-12;
er = linspace(1,5,100);
ur = linspace(1,2,100);
eta = sqrt((mu0.*ur)./(epsilon0.*er));
plot(er,eta,'LineWidth',2);
xlabel('Relative permittivity');
ylabel('Intrinsic Impedance (Ohms)');
title('Intrinsic Impedance vs Permittivity');
```

Output Graph
